Our approach to management is based on:

- A perfect balance between theory and practice, hard skills and soft skills, with both reputable researchers and professional experts teaching in all our programs
- A strong involvement of numerous corporate partners throughout the year: company-sponsored certificates, consultancy projects, seminars, and business games
- An active and powerful Alumni network: +60,000 alumni in 135 countries.

The Master in Management – Grande Ecole Program is accessible to all Universitat Politècnica de Catalunya students who have completed their bachelor, and are in the first year of their master at Universitat Politècnica de Catalunya.

At HEC Paris, Universitat Politècnica de Catalunya students follow the two phases of the Master in Management program, which enable them to acquire both an excellent grounding in general management (1st phase) and expertise in a specific field (2nd phase, with specializations offered in finance, strategic management, marketing, economics, sustainability, and social innovation).

Students also have the possibility to take an optional gap year between the two phases in order to enhance their work experience.

We firmly believe this combination is the determining factor in training future leaders and making a lasting impact on the careers of our students.
